ARTS

ART APPRECIATION

An Art of One's Own: The Story of Women in Art

A century ago, Virginia Woolf stated that women need financial resources and their own space to succeed as writers. This idea also applies to women artists who require money, support from other artists, galleries, museums, and recognition for producing significant art. Historically, women artists were largely excluded from art history books until recently. This class discusses a diverse group of women painters, sculptors, fiber artists, potters, and photographers from the Renaissance to the present, covering various art categories like history, mythology, portraiture, landscape, domestic lives, self-reflection, protest, and abstraction. Artists include Artemesia Gentileschi, Angelica Kauffman, Elisabeth Vigee Le Brun, Kathe Kollwitz, Marie Laurencin, Berthe Morisot, Augusta Savage, Jaune Quick-to-See Smith, Frida Kahlo, Georgia O'Keeffe, Lee Krasner, Joan Mitchell, Helen Frankenthaler, Anni Albers, Carrie Mae Weems, Margaret Bourke-White, Gwendolyn Knight, Emmi Whitehorse, Maria Martinez, and Alma Thomas. We will also explore writers who have highlighted women artists such as Whitney Chadwick and Linda Nochlin, along with supportive museum or gallery curators. Join us for an enlightening experience recognizing these talented and memorable artists. There will be no class on 5/26.

Spring at Seattle Art Galleries

What better way to celebrate the lush imagery of spring than to explore the art galleries in Seattle. We will meet weekly at local art galleries to hear talks, tour the space, and ask questions about the work. Following each visit, we will gather for afternoon tea or coffee to discuss the art and share interests. A sampling of galleries includes Greg Kucera, Foster/White, ArtX Contemporary, Gray Sky, Azuma, Davidson, Patricia Rovzar, Harris Harvey, and Steinbrueck Native Gallery. Whether you are a seasoned gallery visitor or a newcomer, please join us for this harbinger of spring as you experience the art scene in Seattle.

VICTORIA JOHN

Victoria is passionate about art and teaching. She values making connections between the arts, enjoys linking course content to students' life experiences, and creates a meaningful and entertaining educational experience, as well as a relaxed environment for learning. She has taught all levels for over 35 years but especially appreciates the rich interaction inspired by the combined energy and wisdom of adult learners. She has a Master's Degree in Liberal Arts from Southern Methodist University, with post-graduate study in Italy, and a Bachelor's Degree in Arts and Sciences from Indiana University.

CERAMICS

Beginning Ceramics ★

Transform a lump of clay into a piece of art! Using basic wheel-throwing and hand-building methods, learn to create cups, bowls, boxes, and more. Individualized instruction and demonstrations of the technical underpinnings will give you a strong foundation in the ceramic arts. This course is intended for beginner students new to ceramics. Students may repeat for up to four quarters; students with four or more quarters of any level of ceramics will not be permitted to join. There will be no class on 5/24. Supplies are required for this class.

DRAWING

Calligraphy for Beginners and Beyond ★

Improve your handwriting and explore the art of calligraphy in this hands-on, nine-hour workshop. Over three Saturdays, you'll learn to use calligraphy tools and materials to create beautiful, practical lettering. We'll cover two distinct styles and work on projects you can use in everyday life. Perfect for beginners or those with some experience, this class will help you build skills and confidence while creating work you're proud of.

Figure Drawing ★

Discover the fundamentals of figure drawing in this dynamic class, where we'll explore both observational accuracy and conceptual interpretation of the human form. Rooted in classical drawing techniques, this course will emphasize traditional methods of measuring proportion, constructing the figure with geometric forms, and refining drawings through careful attention to light, shadow, and edge quality. You'll learn to build the body from the inside out—starting with internal structures like the skeleton and layering external forms. We'll also examine different ways to interpret the figure, encouraging you to push beyond naturalism and develop your own visual relationship with the human form. Open to all skill levels. There will be no class on 5/23.

Introduction to Drawing ★

Learn the basic techniques of drawing while working from still life, places in our immediate environment and each other in this introductory drawing class. We will focus on the building blocks of drawing such as composition, measurement, line, shape, value, gesture, and mark. You will become familiar with a variety of materials and approaches to drawing by studying artwork both historical and contemporary. Although instruction will be rooted in drawing from observation, we will explore the potential to abstract from what we see and experiment with working from memory. We will engage in group discussions throughout the course.

PEGGY FOY

Peggy is a Seattle metalsmith and enamelist. Her work features layered colors and textures of metal, usually forged and fabricated from raw sheet and wire. She loves making objects that look like artifacts or talismans with some secret, hidden meaning; some pieces also include working mechanisms. The art movement known as Art Nouveau is a strong influence as swirling, graceful lines play a notable part in her work.

Peggy holds a BFA in Jewelry and Metalwork from The University of Georgia. She teaches jewelry classes at Pratt Fine Art Center and Tacoma Metal Art Center as well as private lessons from her jewelry studio in Pioneer Square in Seattle.

JEWELRY

Beginning Jewelry Fabrication ★

Produce your own jewelry design. Beginners are encouraged, but more experienced metalsmiths are welcome too. We'll practice basic metal fabrication and silver soldering techniques with non-ferrous metals and stones to create finished jewelry pieces. The first class will be mandatory. If you miss the first class, you will have to be dropped and you will be issued a full refund. There will be no class on 5/23.

SEWING

Beginning Sewing ★

No more struggling through sewing projects; learn to sew the fun and easy way! Practice pattern reading, choosing the right fabrics and laying out fabric to create a finished piece you can be proud of. Whether you want to re-decorate your home, make crafts or clothes, we'll get you stitching in the right direction. You will sew three projects in class: fabric and patterns for each project provided by the instructor. Please bring a sewing machine in good working order, power cord, foot control, bobbins, operator's manual (if available), sharp scissors, tape measure and straight pins. This class is not open to students under the age of 18. There will be no class on 5/22.

ENRICHMENT

ENTERTAINMENT

Flying Saucer Cinema

This classic science fiction film appreciation class showcases beloved films that cry out for viewing in a group setting the way they were first presented to the world. Each week will bring something new, films ranging from Golden Age sci-fi of the 1950s and 60s to the dystopian science fiction of the 1970s and occasional forays beyond. Co-hosts Eric Cohen and Mark Daniels will be your guides and provide you with film information, trivia, and lively post-screening discussion every week. We begin Spring Quarter with the 1953 classic *The Beast from 20,000 Fathoms*, an early atomic monster flick about a giant dinosaur which is awakened from the ocean depths by an A bomb test to wreak havoc in New York City. Then a group of scientists creates a time portal to visit the far future in the 1964 John Hoyt gem *The Time Travelers*. Mixing things up a bit, our third film, *Matango*, aka *Attack of the Mushroom People* (dir. Ishirō Honda (Godzilla)), is the bizarre, nightmarish tale of a ship-wrecked band on a South Pacific Island covered with a deadly fungus that has it out for hungry castaways. We wrap up on a happy note, pushing the boundaries of science fiction with the 1973 Woody Allen comedy hit *Sleeper* about a nebbishy store owner frozen for two hundred years and revived to lead the fight against an oppressive government. Whether you are a seasoned science fiction film buff or simply want to put your head in a different place for a couple of hours every week, this will be an engaging, fun adventure of a class you won't want to miss.

French from France: Putting Our French to Work

French from France: Putting our acquired French to work: Learners in this class are eager to put their French to work in discussion. While there is no particular plan for teaching grammar in the class, quick review will be provided where necessary. Grammar help can be found by accessing materials from previous study or online search. We will search subjects of interest in French online and report to the class, speak of what we love to do, what we have done in the past few days, and what the weeks ahead have in store for us. This is a French II Plus class for those who are ready to travel and want to test their skills, or those who have been to a French-speaking country and would like to tell us all about it. There will be no class on 5/24.
